Born in Paris, Sangie lived in Australia and has now established her artistic studio in French Provence. Here, she harnesses that famous light in her abstract paintings.

She leans on her modern dancer's sensations and applies colored layers to highlight emotions and embark us on different levels of reality. Over the years, she tirelessly studies the way in which abstraction and the energies conveyed naturally take precedence over reality, in order to transcend the limits of the physical world.

Sangie uses her art to spread messages of optimism and caring. Her artworks lead us to see life with more

perspective and help to strengthen the positive part of our brain.

She extensively exhibited in France and overseas and is now represented in London, Los Angeles, New York & Lisbon. Her paintings are included in private collections all over the world and were presented in Miami Art Basel in December 2018 by Aqua Art Miami.
